
Bibliography

Standards publications

- BS 476-3:1975, *Fire tests on building materials and structures — Part 3: External fire exposure to roof test.*
- BS 476-4:1970, *Fire tests on building materials and structures — Part 4: Non-combustibility test for materials.*
- BS 476-8:1972 (withdrawn), *Fire tests on building materials and structures — Part 8: Test methods and criteria for the fire resistance of elements of building construction.*
- BS 476-20:1987, *Fire tests on building materials and structures — Method for determination of the fire resistance of elements of construction (general principles).*
- BS 476-21:1987, *Fire tests on building materials and structures — Part 21: Methods for determination of the fire resistance of loadbearing elements of construction.*
- BS 476-22:1987, *Fire tests on building materials and structures — Part 22: Methods for determination of the fire resistance of non-loadbearing elements of construction.*
- BS 476-23:1987, *Fire tests on building materials and structures — Part 23: Methods for determination of the contribution of components to the fire resistance of a structure.*
- BS 476-24:1987, *Fire tests on building materials and structures — Part 24: Method for determination of the fire resistance of ventilation ducts.*
- BS 476-33:1993, *Fire tests on building materials and structures — Part 33: Full-scale room test for surface products.*
- BS 5268-2:1996, *Structural use of timber — Code of practice for permissible stress design, materials and workmanship.*
- BS 5268-4.1:1978, *Structural use of timber Part 4: Fire resistance of timber structures — Section 4.1: Recommendations for calculating fire resistance of timber members.*
- BS 5268-4.2:1990, *Structural use of timber Part 4: Fire resistance of timber structures — Section 4.2: Recommendations for calculating fire resistance of timber stud walls and joisted floor constructions.*
- BS 5306-2:1990, *Fire extinguishing installations and equipment on premises — Part 2: Specification for sprinkler systems.*
- BS 5588-9:1999, *Fire precautions in the design, construction and use of buildings—Part 9 Code of practice for ventilation and air conditioning ductwork.*
- BS 5588-11:1997, *Fire precautions in the design, construction and use of buildings—Part 11: Code of practice for shops, offices, industrial, storage and other similar buildings.*
- BS 5628-3:2001, *Use of masonry — Part 3: Materials and components, design and workmanship.*
- BS 5950-8:1990, *Structural use of steelwork in building — Part 8: Code of practice for fire resistant design.*
- BS 6336:1998, *Guide to the development of fire tests, the presentation of test data and the role of tests in hazard assessment.*
- BS 7974:2001, *Application of fire safety engineering principles to the design of buildings — Code of practice.*
- BS 8110-2:1985, *Structural use of concrete — Part 2: Code or practice for special circumstances.*
- BS 8214:1990, *Code of practice for fire door assemblies with non-metallic leaves.*
- BS DD 240-1:1997, *Fire safety engineering in buildings — Part 1: Guide to the application of fire safety engineering principles.*
- BS EN 1363-1:1999, *Fire resistance tests — Part 1: General requirements.*
- BS EN 1363-2:1999, *Fire resistance tests — Part 2: Alternative and additional procedures.*
- BS EN 1364-1:1999, *Fire resistance tests for non-loadbearing elements — Part 1: Walls.*
- BS EN 1364-2:1999, *Fire resistance tests for non-loadbearing elements —Part 2: Ceilings.*
- BS EN 1365-1:1999, *Fire resistance tests for loadbearing elements — Part 1: Walls.*
- BS EN 1365-2:2000, *Fire resistance tests for loadbearing elements — Part 2: Floors and roofs.*
- BS EN 1365-3:2000, *Fire resistance tests for loadbearing elements — Part 3: Beams.*
- BS EN 1365-4:1999, *Fire resistance tests for loadbearing elements — Part 4: Columns.*

- BS EN 1366-1:1999, *Fire resistance tests for service installations — Part 1: Ducts*.
- BS EN 1366-2:1999, *Fire resistance tests for service installations — Part 2: Fire dampers*.
- BS EN 1634-1:2000, *Fire resistance tests for door and shutter assemblies — Part 1: Fire doors and shutters*.
- BS EN 1634-3:2001, *Fire resistance tests for door and shutter assemblies — Part 3: Smoke control doors and shutters*.
- BS EN 10025:1993, *Hot rolled products of non-alloy structural steels — Technical delivery conditions*.
- BS EN 10147:2000, *Continuously hot dipped zinc coated structural steels, strip and sheet — Technical delivery conditions*.
- BS EN 13501-1, *Fire classification of construction products and building elements — Part 1: Classification using test data from reaction to fire tests*.
- BS ISO/TR 12470:1998, *Fire resistance tests — Guidance on the application and extension of results*.
- ISO/FDIS 13784-2, *Reaction to fire test for sandwich panel systems — Part 2: Large room test*.
- DD ENV 1187, *Fire resistance for roofs*.
- DD ENV 1363-3, *Fire resistance tests — Part 3: Verification of furnace performance*.
- DD ENV 1992-1-2:1997, *Eurocode 2: Design of concrete structures — General rules — Structural fire design*.
- DD ENV 1991-2-2:1996, *Basis of design and actions on structures — Actions on structures exposed to fire*.
- DD ENV 1993-1-2:1994, *Eurocode 3: Design of steel structures — General rules — Structural fire design*.
- DD ENV 1994-1-1:1994, *Eurocode 4: Design of composite steel and concrete structures — General rules and rules for buildings*.
- DD ENV 1995-1-2:1994, *Eurocode 5: Design of timber structures. General rules — Structural fire design*.
- DD ENV 1996-1-2:1997, *Eurocode 6: Design of masonry structures — General rules for buildings — Structural fire design*.
- DD ENV 1999-1-2:1998, *Eurocode 9: Design of aluminium structures — General rules — Structural fire design*.
- DD ENV 13381-6, *Test methods for determining the contribution to the fire resistance of structural members — Part 6: Applied protection to concrete filled hollow steel columns*.
- ISO 834-1, *Fire resistance tests — Elements of building construction — Part 1: General requirements*.
